Hello, Hawks!

Hello, my name is Ian Girdley. I am thrilled to be the Pool Manager at Hawks Landing. This pool has always held a special place in my heart. I started as a lifeguard in 2007, moving into a management role later, and then taking a break from the pool in 2013. During the school year, I work as a Special Education Teacher in the Middleton-Cross Plains School District.

Swimming pools and all things aquatics have played an important role throughout my life. I grew up swimming for Ridgewood and Badger Aquatics and was constantly at the pool. I understand the importance of a summer pool and what that can mean for not only kids but adults, too. I believe a pool should be the social network of a community. I hope you and your family meet new people at the pool, socialize, relax, enjoy the sun and water or enjoy just reading a book. I believe all of this is possible while maintaining a safe, nurturing place for our members and their families.

If your family is new to the Hawks Landing Pool this year, I encourage you to please introduce yourself to me this summer. I would also ask that you please familiarize yourself with our policies regarding food/drink on the deck, flotation devices, and the use of our slide. If you have any questions, please contact me or a manager on duty. While we do have an email system in place, I would prefer that you come and see me if there are any suggestions or concerns. I am very excited to be back at Hawks Landing and look forward to a great summer pool season!

Do not forget to like us on Facebook to get up to date schedule changes and other items related to the pool.

Sincerely,

Ian Girdley, Hawks Landing Pool Manager

Hawks Landing Swim Lesson Program

How do I know if my child is ready for swim lessons?

Children **MUST** be at least three (3) years old and ready both physically and emotionally for instruction. If your child is not ready for independent lessons, we request more play time with you as the parents to accomplish those goals and be ready and HAPPY during lessons. Please see Ian if you have any questions or you can email him at ian@hawkslandingpool.com.

Swim lessons are FREE for all pool members!

Lessons will be offered in two consecutive sessions. The first session will run from June 12th – June 29th and the second from July 10th – August 3rd. They will run Monday – Thursday. Lesson times are 10:00am, 10:30am, 11:00am, 11:30am. Evening lessons are 5:00pm and 5:30pm.

Swim lessons are American Red Cross based and will be 25 minutes in length. Evening lessons are limited in size and are intended for those families unable to make it morning lessons. Please select your lesson times accordingly. **Students must be willing to participate without assistance from parents and be at least three (3) years of age.**

Lessons placement is determined by previous lesson experience and/or management review and consultation. Please realize it is normal for most children to repeat various levels multiple times before fully acquiring and mastering essential skills required for the next level. Each level adds new strokes and distance requirements, as well as refinement of stroke style. If you are interested in private lessons, please let one of our managers know. We would be happy to set you up with one of our instructors to complete a lesson during open swim time. The rate is \$20 per 30-minute lesson.

Lesson Registration: The sign-up process for lessons will be done virtually. Please visit this website to find more information about when registration opens: <https://bit.ly/3LApYpl>

American Red Cross Lesson Level Summaries

Level 1: Introduction to water skills helps students feel comfortable in the water and to enjoy the water safely. Students must be independent participants. Parents are not allowed on the edge of the pool or in the water during lessons. Students must be three (3) years of age.

Level 2: Fundamental aquatic skills gives students success with fundamental skills.

Level 3: Stroke development builds on skills in level 2 by providing additional guided practice.

Level 4: Stroke improvement develops confidence in the strokes learned and helps improve other aquatic skills. Emphasis on endurance (front and back), in addition to learning the breast stroke.

Level 5: Stroke refinement provides further coordination and refinement of the strokes.

Level 6: Swimming and skill proficiency refines the strokes so students swim strokes with ease, efficiency, power, and smoothness over greater distances.

If you are unsure which level to register for, please contact Pool Manager, Ian Girdley, at (608) 848-5445. Individual swim testing is available during open swim hours or by appointment with management.
